

SoluChem Bulk Chemical Procurement Services

SoluChem can cost-effectively source a wide variety of chemicals for your production, project or resale needs. We represent several lines of **Specialty Chemicals**. Depending on your location, we can usually have the materials to your overseas location within a few weeks of your order.

SoluChem assists with your logistical, customs and other trade related administrative issues to ensure a trouble-free and timely delivery of your order. Our cost-effective bulk chemical sourcing services can save you time, money and hassle in your procurement efforts.

SoluChem is the exclusive distributor for Novant Chemicals in Latin America. Novant Chemicals provides brilliant applications and innovative solutions for your products.

Whether for the paints, printing inks and cosmetics industries, rubber or plastic applications, Novant specialty chemicals guarantee consistent results and unique effects.

Novant Specialty Pigments and Performance Additives:

- ❖ Novant **Sirius**[®] Pearlescent Pigments
- ❖ Novant **Ionix**[®] Synthetic Iron Oxide Pigments
- ❖ Novant **Trionix**[®] Transparent Iron Oxide Pigments
- ❖ Novant **Illumix**[®] Photoluminescent Pigments
- ❖ Novant **Mettica**[®] Aluminum Pigments

A division of the publicly listed Noble Group, Novant Chemicals is supported by a network of over thirty offices in 18 countries throughout the world.

SoluChem Specialty Bulk Chemicals by Industry

❖ *Food and Beverages*

▶ surfactants, chelates, thickeners and special purpose additives for industrial and institutional compounders.

❖ *Ink*

▶ pigments, additives and oils for ink processing manufacturers.

❖ *Paints & Coatings*

▶ resins, pigments, fillers, extenders and additives for industrial and trade paint manufacturers. In addition, we offer packaging and specialized processing equipment.

❖ *Plastics*

▶ organic and inorganic pigments, fillers, extenders and processing aids to the plastic compounding industry.

❖ *Rubber & Sealants*

▶ functional fillers, including talc, carbonates, mica, ATH and silica.

❖ *Soaps & Detergents*

▶ surfactants, chelates, thickeners and special purpose additives for the industrial and institutional compounders.

❖ *Personal Care Products*

▶ fragrances, surfactants, thickeners and additives for formulators of hair and skin care preparations.
